

For financial advisers only

New protection menu application forms

We've listened to your feedback and launched a new, improved version of our application and data capture forms, which you can start using from **23 January 2010**.

What's changed?

- We've reduced the number of health questions asked so the form and the online application will take less time to complete.
- The personal and health questions are clearer, so it's easier for your clients to give us the information we need. This will help to reduce the number of disputed claims due to non-disclosure.
- We've grouped related questions together to make the form easier to complete.
- We've updated our 'Important notes' and improved our non-disclosure warnings to make them clearer for you and your clients.
- For our paper application forms, we've put the benefits into table format so it's easier to see at a glance what benefits are available.

How to order the new forms

You can order the new forms in the normal way or download them from our [online literature library](#). The version number to look out for is **01/10** – this is clearly visible on the front page.

Will we accept older versions of the application forms?

Don't worry if you still have stock of the old application forms – we'll accept these until **23 March 2010**.

You can also apply online with an old version data capture form until **23 March 2010**.

After 23 March 2010, you **won't** be able to apply online with an old version data capture form and we **won't accept** old version paper applications.

You can find out all the details you need [here](#).
