

AXA Protection Account

Reduce your client's financial worries so they can focus on recovery

A serious accident can impact the whole family. With this in mind, here's a sum your clients can't afford to ignore

If your client is hospitalised for 28 consecutive days or more, they will receive £50,000 or 20% of their sum assured (whichever is lower) with Accident Hospitalisation Cover. This additional cover will consist of a one off payment that won't affect your sum assured.

You only need to look at the figures to understand the financial worries your client could face:

At 79.15 per week, standard Statutory Sick Pay is payable for up to 28 weeks resulting in a total payout of £2,216.20*. Probably not enough to keep your clients or their families financially stable.

We know that for Critical Illness Cover, it's the critical differences that count.

Some types of illnesses are not covered. Please see our Critical Illness Guide for full details.

For cover that provides the right support for your clients and their families, call the AXA Protection Line on 0845 607 1979.
